

World Summit on

Future of Aging, Geriatrics, and Gerontology: Science, Society, and Sustainability

09-10 July 2025 | Prague, Czech Republic

Hosted By:

Scholars Conferences Limited
21 Clifton Road, Newcastle Upon Tyne, England
United Kingdom, NE4 6XH
info@scholarsconferences.com

https://scholarsconferences.org/aging/ https://scholarsconferences.org/geriatrics-gerontology/

Scientific Program

08:00-09:00 R	ay 01 July 09, 2025 Prague, Czech Republic Zurich Meeting Room
	Dening Ceremony
.,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,	Keynote Forum
////	Title: Greatly Increased Lifespan by tRNA Synthetase Inhibitors is linked to Enhanced
09:20-10:00	Proteostasis
	Mark McCormick, University of New Mexico Health Sciences Center, USA
10:00-10:40	Title: Improvement in cognitive impairment following the successful treatment of endogenous
	Malgorzata M Brzozowska, University of New South Wales, Sydney, Australia
	Networking & Refreshments Break @ 10:40-11:0
11:00-11:40	Title: Epigenetic and Chromatin Regulation of Aging in Mammalian Stem Cells
	Weiwei Dang, Baylor College of Medicine, USA
11:40-12:20	Title: The 7 secrets of a long, healthy life
	Thomas Klaholz, The University of Bonn, Germany
12:20-13:00	Title: Re-thinking ageing: Qualitative and quantitative inquiries into positive ageing
	Miriam Park, Nottingham Trent University, UK
	Lunch and Networking Break @ 13:00-13:5 Title: Islands of Longevity: Genetic & Lifestyle Insights from Okinawa & Hawaiʻi
13:50-14:30	Donald Craig Willcox, Okinawa International University, Japan
	Speaker Session:
Session Chai	r: Malgorzata M Brzozowska, University of New South Wales, Sydney, Australia
	Title: Geriatric Innovations: From Research to Real-World Impact
14:30-15:00	Waleed Algaradi, KSU, Saudi Arabia
	Title: Unveiling the genetic landscape of basal ganglia: implications for common brain
15:00-15:30	
15.55-15.55	Shahram Bahrami, University of Oslo, Norway
	Title: LongevAi: Intelligent Platform for Personalized Geriatric Wellness and Community
15:30-16:00	Experience
	Pablo Bastida, Amatista Life Sa De Cv, Mexico
	Networking & Refreshments Break @ 16:00-16:1
	Title: Opportunities in Aging: Graduate Programs at USC Leonard Davis School of
16:10-16:30	Gerontology
	Steven Stumph, USC Leonard Davis School of Gerontology, USA
	Title: Clinical Observations in Rheumatologic and Cardiovascular Conditions in Elderly
16:30-17:00	Patients
	Shkumbim A Thaqi, Center for Family Medicine, Republic of Kosovo
17:00-17:30	Title: Potential serum biomarkers for early detection of diabetic nephropathy
17:00-17:30	Tarek K Motawi, Cairo University, Egypt
	Poster Presentation
EP001	Title: Unveiling the genetic landscape of basal ganglia: implications for common brain
17:30-17:50	disorders
17:30-17:50	Shahram Bahrami, University of Oslo, Norway
	Panel Discussions & B2B Meeting

	Day 02 July 10, 2025 Virtual GMT+2
Introduction	
	Keynote Forum
00 20 10 00	Title: Nutrigenetic Analysis and Epigenetic Importance in Longevity Anti-Aging Processes.
09:30-10:00	Change your life: Epigenetics of longevity Gulsen Meral, Epigenetic Coaching Founder, UK
	Title: Pain & Ageing: Where are we now and what needs to be done?
10:00-10:30	Patricia Schofield, University of Plymouth, UK
	Speaker Sessions
/////	Title: Demographic Dynamics of Aging and Economic Restructuring — Challenges and
10:30-10:55	Opportunities
	Kalthoum Sfar, Saudi Electronic University, Saudi Arabia
10:55-11:20	Title: Psychophysical Conditioning as a Key to Active Longevity: Taiji and Qigong in the System of Social Adaptation for Older Adults
10:55-11:20	Trofimova Mariia, Saint- Petersburg University, Russia
	Break @ 11:20-11:40
	Title: The potential role of cannabidiol in Alzheimer's disease and aging may provide new
11:40-12:05	insights into human health and longevity
	Yanying Liu, Qingdao Huanghai University, China
	Title: Identification of the Shared Gene Signatures Between Alzheimer's Disease and
12:05-12:20	Diabetes-Associated Cognitive Dysfunction by Bioinformatics Analysis Combined with Biological Experiment
	Yixin Chen, Fudan University, China
	Title: The Probiotic Skin Care and Anti-Aging Effects: Microbial Allies for Rejuvenation
12:20-12:45	Fatemeh Safaie, Iranian Research Organization for Science and Technology, Iran
	Title: Review of Quality of Life for active treated patients and for palliative care treated
12:45-13:10	patients with cancer
	Alexandru Calin Grigorescu, Hospital of Nephrology Bucuresti, Romania
	Break @ 13:10-13:30
12.20 12.55	Break @ 13:10-13:30 Title: Examining the Relationship between Obesity and Income Distribution Using Body Mass
13:30-13:55	Break @ 13:10-13:30 Title: Examining the Relationship between Obesity and Income Distribution Using Body Mass Index (BMI) and Body Shape and Size Index (BSSI): A Case Study of Pakistan
13:30-13:55	Break @ 13:10-13:30 Title: Examining the Relationship between Obesity and Income Distribution Using Body Mass Index (BMI) and Body Shape and Size Index (BSSI): A Case Study of Pakistan Waqas Ghulam Hussain, The Islamia University of Bahawalpur, Pakistan
13:30-13:55 13:55-14:20	Break @ 13:10-13:30 Title: Examining the Relationship between Obesity and Income Distribution Using Body Mass Index (BMI) and Body Shape and Size Index (BSSI): A Case Study of Pakistan
	Break @ 13:10-13:30 Title: Examining the Relationship between Obesity and Income Distribution Using Body Mass Index (BMI) and Body Shape and Size Index (BSSI): A Case Study of Pakistan Waqas Ghulam Hussain, The Islamia University of Bahawalpur, Pakistan Title: Discovery and Characterization of Small Molecule Modulators of Striatal-Enriched
13:55-14:20	Break @ 13:10-13:30 Title: Examining the Relationship between Obesity and Income Distribution Using Body Mass Index (BMI) and Body Shape and Size Index (BSSI): A Case Study of Pakistan Waqas Ghulam Hussain, The Islamia University of Bahawalpur, Pakistan Title: Discovery and Characterization of Small Molecule Modulators of Striatal-Enriched Protein Tyrosine Phosphatase (STEP) for Alzheimer's Disease Therapeutics
	Title: Examining the Relationship between Obesity and Income Distribution Using Body Mass Index (BMI) and Body Shape and Size Index (BSSI): A Case Study of Pakistan Waqas Ghulam Hussain, The Islamia University of Bahawalpur, Pakistan Title: Discovery and Characterization of Small Molecule Modulators of Striatal-Enriched Protein Tyrosine Phosphatase (STEP) for Alzheimer's Disease Therapeutics Jiaqian Wu, Sanford Burnham Prebys Medical Discovery, USA Title: Impact of Receptive Music on Mood in the Elderly Neha Varanasi, Berkeley Preparatory School, USA
13:55-14:20 14:20-14:45	Title: Examining the Relationship between Obesity and Income Distribution Using Body Mass Index (BMI) and Body Shape and Size Index (BSSI): A Case Study of Pakistan Waqas Ghulam Hussain, The Islamia University of Bahawalpur, Pakistan Title: Discovery and Characterization of Small Molecule Modulators of Striatal-Enriched Protein Tyrosine Phosphatase (STEP) for Alzheimer's Disease Therapeutics Jiaqian Wu, Sanford Burnham Prebys Medical Discovery, USA Title: Impact of Receptive Music on Mood in the Elderly Neha Varanasi, Berkeley Preparatory School, USA Title: Gut Microbiota Disparities between Active Crohn's Disease and Healthy Controls: A
13:55-14:20 14:20-14:45	Title: Examining the Relationship between Obesity and Income Distribution Using Body Mass Index (BMI) and Body Shape and Size Index (BSSI): A Case Study of Pakistan Waqas Ghulam Hussain, The Islamia University of Bahawalpur, Pakistan Title: Discovery and Characterization of Small Molecule Modulators of Striatal-Enriched Protein Tyrosine Phosphatase (STEP) for Alzheimer's Disease Therapeutics Jiaqian Wu, Sanford Burnham Prebys Medical Discovery, USA Title: Impact of Receptive Music on Mood in the Elderly Neha Varanasi, Berkeley Preparatory School, USA Title: Gut Microbiota Disparities between Active Crohn's Disease and Healthy Controls: A Global Systematic Review
13:55-14:20 14:20-14:45	Title: Examining the Relationship between Obesity and Income Distribution Using Body Mass Index (BMI) and Body Shape and Size Index (BSSI): A Case Study of Pakistan Waqas Ghulam Hussain, The Islamia University of Bahawalpur, Pakistan Title: Discovery and Characterization of Small Molecule Modulators of Striatal-Enriched Protein Tyrosine Phosphatase (STEP) for Alzheimer's Disease Therapeutics Jiaqian Wu, Sanford Burnham Prebys Medical Discovery, USA Title: Impact of Receptive Music on Mood in the Elderly Neha Varanasi, Berkeley Preparatory School, USA Title: Gut Microbiota Disparities between Active Crohn's Disease and Healthy Controls: A Global Systematic Review Geetika Malik Ahlawat, Chandigarh University, India
13:55-14:20 14:20-14:45	Title: Examining the Relationship between Obesity and Income Distribution Using Body Mass Index (BMI) and Body Shape and Size Index (BSSI): A Case Study of Pakistan Waqas Ghulam Hussain, The Islamia University of Bahawalpur, Pakistan Title: Discovery and Characterization of Small Molecule Modulators of Striatal-Enriched Protein Tyrosine Phosphatase (STEP) for Alzheimer's Disease Therapeutics Jiaqian Wu, Sanford Burnham Prebys Medical Discovery, USA Title: Impact of Receptive Music on Mood in the Elderly Neha Varanasi, Berkeley Preparatory School, USA Title: Gut Microbiota Disparities between Active Crohn's Disease and Healthy Controls: A Global Systematic Review Geetika Malik Ahlawat, Chandigarh University, India
13:55-14:20 14:20-14:45 14:45-15:10	Title: Examining the Relationship between Obesity and Income Distribution Using Body Mass Index (BMI) and Body Shape and Size Index (BSSI): A Case Study of Pakistan Waqas Ghulam Hussain, The Islamia University of Bahawalpur, Pakistan Title: Discovery and Characterization of Small Molecule Modulators of Striatal-Enriched Protein Tyrosine Phosphatase (STEP) for Alzheimer's Disease Therapeutics Jiaqian Wu, Sanford Burnham Prebys Medical Discovery, USA Title: Impact of Receptive Music on Mood in the Elderly Neha Varanasi, Berkeley Preparatory School, USA Title: Gut Microbiota Disparities between Active Crohn's Disease and Healthy Controls: A Global Systematic Review Geetika Malik Ahlawat, Chandigarh University, India
13:55-14:20 14:20-14:45 14:45-15:10	Title: Examining the Relationship between Obesity and Income Distribution Using Body Mass Index (BMI) and Body Shape and Size Index (BSSI): A Case Study of Pakistan Waqas Ghulam Hussain, The Islamia University of Bahawalpur, Pakistan Title: Discovery and Characterization of Small Molecule Modulators of Striatal-Enriched Protein Tyrosine Phosphatase (STEP) for Alzheimer's Disease Therapeutics Jiaqian Wu, Sanford Burnham Prebys Medical Discovery, USA Title: Impact of Receptive Music on Mood in the Elderly Neha Varanasi, Berkeley Preparatory School, USA Title: Gut Microbiota Disparities between Active Crohn's Disease and Healthy Controls: A Global Systematic Review Geetika Malik Ahlawat, Chandigarh University, India Keynote Forum Title: How Longevity is Culturally Learned and the Causes of Health Are Inherited: Lessons
13:55-14:20 14:20-14:45 14:45-15:10 15:10-15:40	Title: Examining the Relationship between Obesity and Income Distribution Using Body Mass Index (BMI) and Body Shape and Size Index (BSSI): A Case Study of Pakistan Waqas Ghulam Hussain, The Islamia University of Bahawalpur, Pakistan Title: Discovery and Characterization of Small Molecule Modulators of Striatal-Enriched Protein Tyrosine Phosphatase (STEP) for Alzheimer's Disease Therapeutics Jiaqian Wu, Sanford Burnham Prebys Medical Discovery, USA Title: Impact of Receptive Music on Mood in the Elderly Neha Varanasi, Berkeley Preparatory School, USA Title: Gut Microbiota Disparities between Active Crohn's Disease and Healthy Controls: A Global Systematic Review Geetika Malik Ahlawat, Chandigarh University, India Keynote Forum Title: How Longevity is Culturally Learned and the Causes of Health Are Inherited: Lessons from Centenarians
13:55-14:20 14:20-14:45 14:45-15:10	Title: Examining the Relationship between Obesity and Income Distribution Using Body Mass Index (BMI) and Body Shape and Size Index (BSSI): A Case Study of Pakistan Waqas Ghulam Hussain, The Islamia University of Bahawalpur, Pakistan Title: Discovery and Characterization of Small Molecule Modulators of Striatal-Enriched Protein Tyrosine Phosphatase (STEP) for Alzheimer's Disease Therapeutics Jiaqian Wu, Sanford Burnham Prebys Medical Discovery, USA Title: Impact of Receptive Music on Mood in the Elderly Neha Varanasi, Berkeley Preparatory School, USA Title: Gut Microbiota Disparities between Active Crohn's Disease and Healthy Controls: A Global Systematic Review Geetika Malik Ahlawat, Chandigarh University, India Keynote Forum Title: How Longevity is Culturally Learned and the Causes of Health Are Inherited: Lessons from Centenarians Mario Martinez, Biocognitive Science Institute, USA Title: A New Trend in the Field of Rejuvenation Could be a Cellular Autocloning Lev Salnikov, AntiCA Biomed San Diego, USA
13:55-14:20 14:20-14:45 14:45-15:10 15:10-15:40	Title: Examining the Relationship between Obesity and Income Distribution Using Body Mass Index (BMI) and Body Shape and Size Index (BSSI): A Case Study of Pakistan Waqas Ghulam Hussain, The Islamia University of Bahawalpur, Pakistan Title: Discovery and Characterization of Small Molecule Modulators of Striatal-Enriched Protein Tyrosine Phosphatase (STEP) for Alzheimer's Disease Therapeutics Jiaqian Wu, Sanford Burnham Prebys Medical Discovery, USA Title: Impact of Receptive Music on Mood in the Elderly Neha Varanasi, Berkeley Preparatory School, USA Title: Gut Microbiota Disparities between Active Crohn's Disease and Healthy Controls: A Global Systematic Review Geetika Malik Ahlawat, Chandigarh University, India Keynote Forum Title: How Longevity is Culturally Learned and the Causes of Health Are Inherited: Lessons from Centenarians Mario Martinez, Biocognitive Science Institute, USA Title: A New Trend in the Field of Rejuvenation Could be a Cellular Autocloning Lev Salnikov, AntiCA Biomed San Diego, USA Break @ 16:25-16:40
13:55-14:20 14:20-14:45 14:45-15:10 15:10-15:40	Title: Examining the Relationship between Obesity and Income Distribution Using Body Mass Index (BMI) and Body Shape and Size Index (BSSI): A Case Study of Pakistan Waqas Ghulam Hussain, The Islamia University of Bahawalpur, Pakistan Title: Discovery and Characterization of Small Molecule Modulators of Striatal-Enriched Protein Tyrosine Phosphatase (STEP) for Alzheimer's Disease Therapeutics Jiaqian Wu, Sanford Burnham Prebys Medical Discovery, USA Title: Impact of Receptive Music on Mood in the Elderly Neha Varanasi, Berkeley Preparatory School, USA Title: Gut Microbiota Disparities between Active Crohn's Disease and Healthy Controls: A Global Systematic Review Geetika Malik Ahlawat, Chandigarh University, India Keynote Forum Title: How Longevity is Culturally Learned and the Causes of Health Are Inherited: Lessons from Centenarians Mario Martinez, Biocognitive Science Institute, USA Title: A New Trend in the Field of Rejuvenation Could be a Cellular Autocloning Lev Salnikov, AntiCA Biomed San Diego, USA Break @ 16:25-16:40
13:55-14:20 14:20-14:45 14:45-15:10 15:10-15:40 15:40-16:10	Title: Examining the Relationship between Obesity and Income Distribution Using Body Mass Index (BMI) and Body Shape and Size Index (BSSI): A Case Study of Pakistan Waqas Ghulam Hussain, The Islamia University of Bahawalpur, Pakistan Title: Discovery and Characterization of Small Molecule Modulators of Striatal-Enriched Protein Tyrosine Phosphatase (STEP) for Alzheimer's Disease Therapeutics Jiaqian Wu, Sanford Burnham Prebys Medical Discovery, USA Title: Impact of Receptive Music on Mood in the Elderly Neha Varanasi, Berkeley Preparatory School, USA Title: Gut Microbiota Disparities between Active Crohn's Disease and Healthy Controls: A Global Systematic Review Geetika Malik Ahlawat, Chandigarh University, India Keynote Forum Title: How Longevity is Culturally Learned and the Causes of Health Are Inherited: Lessons from Centenarians Mario Martinez, Biocognitive Science Institute, USA Title: A New Trend in the Field of Rejuvenation Could be a Cellular Autocloning Lev Salnikov, AntiCA Biomed San Diego, USA Break @ 16:25-16:40 Poster Presentation Title: Differences of pattern of impairment: Decision-making capacity in people with Mild
13:55-14:20 14:20-14:45 14:45-15:10 15:10-15:40	Title: Examining the Relationship between Obesity and Income Distribution Using Body Mass Index (BMI) and Body Shape and Size Index (BSSI): A Case Study of Pakistan Waqas Ghulam Hussain, The Islamia University of Bahawalpur, Pakistan Title: Discovery and Characterization of Small Molecule Modulators of Striatal-Enriched Protein Tyrosine Phosphatase (STEP) for Alzheimer's Disease Therapeutics Jiaqian Wu, Sanford Burnham Prebys Medical Discovery, USA Title: Impact of Receptive Music on Mood in the Elderly Neha Varanasi, Berkeley Preparatory School, USA Title: Gut Microbiota Disparities between Active Crohn's Disease and Healthy Controls: A Global Systematic Review Geetika Malik Ahlawat, Chandigarh University, India Keynote Forum Title: How Longevity is Culturally Learned and the Causes of Health Are Inherited: Lessons from Centenarians Mario Martinez, Biocognitive Science Institute, USA Title: A New Trend in the Field of Rejuvenation Could be a Cellular Autocloning Lev Salnikov, AntiCA Biomed San Diego, USA Break @ 16:25-16:40 Poster Presentation Title: Differences of pattern of impairment: Decision-making capacity in people with Mild Cognitive Impairment and Alzheimer's Disease
13:55-14:20 14:20-14:45 14:45-15:10 15:10-15:40 15:40-16:10	Title: Examining the Relationship between Obesity and Income Distribution Using Body Mass Index (BMI) and Body Shape and Size Index (BSSI): A Case Study of Pakistan Waqas Ghulam Hussain, The Islamia University of Bahawalpur, Pakistan Title: Discovery and Characterization of Small Molecule Modulators of Striatal-Enriched Protein Tyrosine Phosphatase (STEP) for Alzheimer's Disease Therapeutics Jiaqian Wu, Sanford Burnham Prebys Medical Discovery, USA Title: Impact of Receptive Music on Mood in the Elderly Neha Varanasi, Berkeley Preparatory School, USA Title: Gut Microbiota Disparities between Active Crohn's Disease and Healthy Controls: A Global Systematic Review Geetika Malik Ahlawat, Chandigarh University, India Keynote Forum Title: How Longevity is Culturally Learned and the Causes of Health Are Inherited: Lessons from Centenarians Mario Martinez, Biocognitive Science Institute, USA Title: A New Trend in the Field of Rejuvenation Could be a Cellular Autocloning Lev Salnikov, AntiCA Biomed San Diego, USA Break @ 16:25-16:40 Poster Presentation Title: Differences of pattern of impairment: Decision-making capacity in people with Mild Cognitive Impairment and Alzheimer's Disease Natalie DeSouza, Universidade Federal do Rio de Janeiro, Brazil
13:55-14:20 14:20-14:45 14:45-15:10 15:10-15:40 15:40-16:10	Title: Examining the Relationship between Obesity and Income Distribution Using Body Mass Index (BMI) and Body Shape and Size Index (BSSI): A Case Study of Pakistan Waqas Ghulam Hussain, The Islamia University of Bahawalpur, Pakistan Title: Discovery and Characterization of Small Molecule Modulators of Striatal-Enriched Protein Tyrosine Phosphatase (STEP) for Alzheimer's Disease Therapeutics Jiaqian Wu, Sanford Burnham Prebys Medical Discovery, USA Title: Impact of Receptive Music on Mood in the Elderly Neha Varanasi, Berkeley Preparatory School, USA Title: Gut Microbiota Disparities between Active Crohn's Disease and Healthy Controls: A Global Systematic Review Geetika Malik Ahlawat, Chandigarh University, India Keynote Forum Title: How Longevity is Culturally Learned and the Causes of Health Are Inherited: Lessons from Centenarians Mario Martinez, Biocognitive Science Institute, USA Title: A New Trend in the Field of Rejuvenation Could be a Cellular Autocloning Lev Salnikov, AntiCA Biomed San Diego, USA Break @ 16:25-16:40 Poster Presentation Title: Differences of pattern of impairment: Decision-making capacity in people with Mild Cognitive Impairment and Alzheimer's Disease
13:55-14:20 14:20-14:45 14:45-15:10 15:10-15:40 15:40-16:10	Title: Examining the Relationship between Obesity and Income Distribution Using Body Mass Index (BMI) and Body Shape and Size Index (BSSI): A Case Study of Pakistan Waqas Ghulam Hussain, The Islamia University of Bahawalpur, Pakistan Title: Discovery and Characterization of Small Molecule Modulators of Striatal-Enriched Protein Tyrosine Phosphatase (STEP) for Alzheimer's Disease Therapeutics Jiaqian Wu, Sanford Burnham Prebys Medical Discovery, USA Title: Impact of Receptive Music on Mood in the Elderly Neha Varanasi, Berkeley Preparatory School, USA Title: Gut Microbiota Disparities between Active Crohn's Disease and Healthy Controls: A Global Systematic Review Geetika Malik Ahlawat, Chandigarh University, India Keynote Forum Title: How Longevity is Culturally Learned and the Causes of Health Are Inherited: Lessons from Centenarians Mario Martinez, Biocognitive Science Institute, USA Title: A New Trend in the Field of Rejuvenation Could be a Cellular Autocloning Lev Salnikov, AntiCA Biomed San Diego, USA Break @ 16:25-16:40 Poster Presentation Title: Differences of pattern of impairment: Decision-making capacity in people with Mild Cognitive Impairment and Alzheimer's Disease Natalie DeSouza, Universidade Federal do Rio de Janeiro, Brazil Title: Advancing Elderly Social Health in Iran: Policy Analysis and Recommendations (2000s- Present) Maryam koosha, Institiute for humanities and cultural studies, Iran
13:55-14:20 14:20-14:45 14:45-15:10 15:10-15:40 15:40-16:10	Title: Examining the Relationship between Obesity and Income Distribution Using Body Mass Index (BMI) and Body Shape and Size Index (BSSI): A Case Study of Pakistan Waqas Ghulam Hussain, The Islamia University of Bahawalpur, Pakistan Title: Discovery and Characterization of Small Molecule Modulators of Striatal-Enriched Protein Tyrosine Phosphatase (STEP) for Alzheimer's Disease Therapeutics Jiaqian Wu, Sanford Burnham Prebys Medical Discovery, USA Title: Impact of Receptive Music on Mood in the Elderly Neha Varanasi, Berkeley Preparatory School, USA Title: Gut Microbiota Disparities between Active Crohn's Disease and Healthy Controls: A Global Systematic Review Geetika Malik Ahlawat, Chandigarh University, India Keynote Forum Title: How Longevity is Culturally Learned and the Causes of Health Are Inherited: Lessons from Centenarians Mario Martinez, Biocognitive Science Institute, USA Title: A New Trend in the Field of Rejuvenation Could be a Cellular Autocloning Lev Salnikov, AntiCA Biomed San Diego, USA Break @ 16:25-16:40 Poster Presentation Title: Differences of pattern of impairment: Decision-making capacity in people with Mild Cognitive Impairment and Alzheimer's Disease Natalie DeSouza, Universidade Federal do Rio de Janeiro, Brazil Title: Advancing Elderly Social Health in Iran: Policy Analysis and Recommendations (2000s- Present)
